Campus looks very different this Fall. Social distancing, online classes, and protective garments can make campus seem unusual. Even with these safety measures in place, Pirates are ready to make this semester successful!

**Settling in:**
After moving-in to your off-campus housing, make sure that you complete and turn-in the move-in inspection form. This form acts as insurance for you, the renter. Ensure that you have completely filled out the form. You are even able to include pictures.

**Stay Connected to Campus:**
With many students taking online classes, and many events being held virtually, it can be difficult to feel connected to campus. Stay connected by registering on Engage [https://ecu.campuslabs.com/engage/](https://ecu.campuslabs.com/engage/).

Utilize social media! Follow ECU official accounts to stay up to date with events!

**Remember the three "W's":**
Whether off or on campus, always remember the three "W's". Wear, wait, wash. Wear a facial covering, wait six feet apart, and wash your hands often for at least 20 seconds.

**Symptom Checker:**
Ensure that you are self-reporting using the the COVID Screening tool: [https://symptom-screening.ecu.edu/](https://symptom-screening.ecu.edu/). Students, staff, and faculty are required to complete the screening test everyday.

**Off-Campus Student Services:**
OCSS is currently available virtually. If you have any question about off-campus living, please give our office a call!
